MEMORANDUM FOR MR. TOLSON

I interviewed Mr. Carl E. Hennrich this morning in connection with his application for the position of Student Fingerprint Classifier.

Mr. Hennrich informed me that he was born in Sparta, Illinois; that he is twenty-four years of age and that he finished his high school studies at Sparta shortly prior to coming to Washington, D. C. in 1929. Since living in Washington he has attended Clements School for Secretaries for a period of seven months. Later he entered National University for the purpose of studying law, which course he expects to complete in the spring of 1934.

This applicant was employed by the Parkway Motor Company on Wisconsin Avenue from February until August 1929, from which concern he went to the Washington Motor Company at 635 Massachusetts Avenue for a period of eight months. Subsequently he was appointed as junior clerk at the Census Bureau where he was employed until December 1932, during which time he received a salary ranging from \$1440 to \$1560 per annum. Since December 1932 he has had minor positions such as selling automobiles and is at the present employed by the American Automobile Association at a salary of \$1440 per annum. Mr. Hennrich stated that his reason for applying for a position as Student Fingerprint Classifier was to obtain permanent employment in order to complete his school work and later apply for a position as Special Agent in the Division.

Mr. Hennrich impressed me as being intelligent and as being well qualified to perform the duties of Student Fingerprint Classifier. It is recommended that his application receive favorable consideration.

Respectfully,

Mr. Frank P. Torrance, Principal of the Sparta Township High School, was interviewed at his office in the High School building and he stated that the applicant attended the said High School from September 4, 1923 until May 31, 1927 when he was graduated. His record during that period of time reflects he was apparently considered a B student, his average for the four years being 84.7. During that time he was regular in attendance and his deportment was considered the very best. Mr. Torrance further stated he would like to recommend the applicant as he knows him personally; that during his High School course he was a member of the debating team and in that way he became acquainted with him. Mr. Torrance has taught the applicant personally in class and prior to teaching him had taught other members of the applicant's family, all of whom he believed to possess unusual qualities.

Mr. Vernon Leslie, Postmaster at Sparta, was interviewed and he stated that he has known the applicant for a long time. He also knows the applicant's father and mother and all the other members of the family; that he was a neighbor living within $1\frac{1}{2}$ miles of the applicant's home at Baldwin, Ill. and that he could not speak too highly concerning the excellent character of the applicant. He further stated that throughout the township of Sparta applicant is considered a high type of individual and that he possesses a wide circle of friends.

Mr. John Rankin, Supervisor of Highways, Randolph County, Illinois, was interviewed at Sparta and he advised that he has known the applicant for 15 or 18 years. Prior to that time he knew his father and mother and older brothers; that they all possess excellent reputations and that the applicant particularly is known among his associates as a very worthy individual and one who has worked hard to advance himself. Mr. Rankin further stated that at one time the father of the applicant was indebted to him for the sum of \$14,000 and that although farming conditions made it very difficult for the applicant's father to meet this obligation that he, Mr. Rankin, would always remember the unusual efforts that he made and the sacrifices that were necessary in order for him to successfully pay off this debt.

Chief Burnell Smith of the Sparta Police Department stated he has known the applicant for 15 years; that the applicant lived with his brother, Peter Hennrich in Sparta while attending High School; that the applicant has no criminal record whatsoever and that he bears an excellent reputation in the community.

At Chester, Ill.

The birth records in the office of the County Clerk reflect

that a son was born to Peter J. and Anna Hemrich on June 15, 1909 at Wash, Ill. but no given name is listed in said record.

At the Sheriff's Office at Chester agent was advised by Deputy Sheriff Stott that he knows the applicant and also knows the entire family; that neither the applicant nor any member of the family have any criminal record whatsoever in the Sheriff's Office.

It may be noted that due to the inaccessibility of the highway to Baldwin, Ill. at this time it was impossible to obtain the school record at the Baldwin Elementary School, however, at the Sparta Township High School Mr. Torrance exhibited to this agent a certificate to the effect that the applicant had completed the elementary course at the above mentioned Elementary School.

It may further be noted that during the first part of his period of employment with the Bodeker-Conner Motor Co. at Sparta, Ill. the applicant commuted to and from his home at Baldwin, Ill. and it was only during the latter part of his High School Course that he resided in Sparta proper.

An effort was made to interview Paul Bredekamp, a reference of applicant who is employed by the Washington Terminal Company, Union Station, Washington, D. C. At the accounting office it was ascertained that Mr. Bredekamp is now confined in a sanitarium suffering from a nervous breakdown and is considered in a serious condition. For this reason no effort has been made to interview Mr. Bredekamp.

Mrs. I. F. Arthur, 625 Kennedy Street, N. W., was contacted and advised she has known applicant for approximately five or six years and has come in contact with him since that time almost daily. She advised she lives in the neighborhood with applicant and she is also personally acquainted with his sister, Mrs. G. F. Soter. Applicant is a regular attendant at the present time at the National University Law School. There was no evidence of any

detriment of character in the record of applicant at the National University Law School.

A reference stated applicant was employed by the Washington Motor Company, 635 Massachusetts Avenue, N. W., Washington, D. C. Agent made inquiry at 635 Massachusetts Avenue and ascertained that the Washington Motor Company is no longer in business and that the premises at the present time are occupied by the Washington Tobacco Company. A check of the telephone directory disclosed that there is no Washington Motor Company at the present time.

Mr. F. E. Carter of the Parkway Motor Company, 3040 M Street, N. W. was contacted by Agent and advised that he remembers applicant as having been employed by the Parkway Motor Company sometime during 1929, but that they had maintained no permanent record of applicant and therefore could give no information. Mr. Carter stated that it was his recollection that he was an assistant stock clerk and therefore he did not come in contact with applicant. He stated, however, had there been anything irregular in his services he would have known the same. He stated applicant's employment at the Parkway Motor Company was entirely satisfactory.

Dr. G. H. Anderson of 5913 Georgia Avenue, N. W., was contacted and advised that he has known applicant for approximately four years; that he considers him above the average in intelligence, extremely neat in his appearance, is not addicted to intoxicating liquors and that he would make a valuable employee, as he could be trusted. He further stated applicant is extremely ambitious and that he would thoroughly recommend him for the position sought. Dr. Anderson related further that he knows applicant's sister, Mrs. Soter and her husband, and that they are an extremely respectable family and applicant resides with them; that applicant bears an extremely good reputation in the neighborhood in which he lives, has a good circle of respectable friends and conducts himself in a gentlemanly manner at all times. Dr. Anderson stated he would recommend applicant for the position and felt sure that he would succeed.

Mrs. N. L. Veirs, who resides at 628 Jefferson Street, next door neighbor of applicant, was contacted and advised that she knows applicant personally and also his sister Mrs. Soter; that applicant resides with his sister and both applicant and the Soter family are extremely respectable. Mrs. Veirs stated that at no time has she ever

heard of applicant being involved in any difficulties and that he has always conducted himself in a gentlemanly manner in the neighborhood.

Mrs. A. R. Cochel, of 630 Jefferson Street was contacted and advised that she knows applicant and the Soter family; that applicant resides with his married sister, Mrs. Soter; that he is a young man neat in his appearance and is well behaved and that the Soter family are a very respectable family in the neighborhood and applicant likewise enjoys a good reputation. She has heard nothing of a detrimental nature against either the Soter family or applicant.

At the office of the Agricultural Adjustment Administration, Agent obtained the personnel file of applicant which showed that he was employed as a junior file clerk at a salary of \$1440 per year on August 30, 1933 and that he is presently employed in that capacity. The file further shows that applicant's work has been satisfactory while employed in the Agriculture Department. No effort was made to interview his immediate superior as applicant did not desire it to be known that he had applied for the present position.

At the office of the Appointment Clerk, Department of Commerce, the personnel records were checked by Agent and it was ascertained that applicant was employed as a clerk in the Bureau of Census from April 13, 1930 to November 30, 1932 at a salary of \$4.27 a day and his employment there was entirely satisfactory. There was no complaint in his file.

An effort was made to interview Mr. John Kammerer of the Welfare and Recreation Association, Navy Building, Washington, D. C. Mr. Kammerer, however, was unable to be reached and it was ascertained from Mrs. Morris that applicant was employed as an attendant of the tennis courts from March until August, 1933 and that his employment was entirely satisfactory. Mrs. Morris stated she remembers the applicant and stated that he was a competent employee.

At the office of Stone's Mercantile Agency, it was ascertained that the applicant had no adverse credit rating with that organization.

The records of the Metropolitan Police Department were checked and it was ascertained applicant had no criminal record in Washington, D. C.

MEMORANDUM FOR MR. TOLSON.

I beg to submit the following comments concerning the work of Mr. Carl E. Hennrich, who reported to this Unit as a student fingerprint classifier on February 3, 1934:

Mr. Hennrich indicated at the outset while under the supervision of Mr. Knowles that he was an excellent prospect as a fingerprint classifier and did very satisfactory work while under instruction on the female cabinets.

During the past two weeks he has been handling the major part of the work on a cabinet with another student and has shown excellent results. He was given 50 fingerprints to classify on March 3rd and classified all prints correctly.

I consider Mr. Hennrich a valuable employee and a distinct asset to the Technical Section.

MEMORANDUM FOR MR. TOLSON

With reference to Mr. C. E. Hennrich who entered on duty in the Identification Unit as a Student Fingerprint Classifier on February 3, 1934, the following comments are submitted:

Mr. Hennrich was not on duty for approximately three months during the period from February 3 to August 30, 1934, due to illness. His work, however, has been at all times satisfactory. He progressed satisfactorily in his understanding and application of the practice of classifying, searching, and filing fingerprints. He has been assigned to a fingerprint cabinet containing searches of more than average difficulty and his work has been accurate and has been performed at a rate of speed much higher than the average. He has continued to show interest in his work and has applied himself diligently to his assignments.

It is believed that Mr. Hennrich is a very satisfactory fingerprint employee and gives promise of being a valuable technical employee.

Respectfully,

L. C. Schilder

MEMORANDUM FOR MR. TOLSON

RE: Mr. C. E. Hennrich,
Mr. H. H. Kneeland,
and Mr. I. H. Borgen,
Employees.

The correspondence attached refers to errors made in the case of fingerprints received in the Identification Unit from the DeKalb County Police Department, Decatur, Georgia, in the cases of Frank Miller, #729, George Gray, #730, and George Brunson, #731. The errors were "missed" identifications. Two errors are chargeable to student fingerprint classifiers: Mr. H. H. Kneeland, who entered on duty October 22, 1934, and Mr. I. H. Borgen, who entered on duty August 20, 1934. Mr. C. E. Hennrich, assistant fingerprint classifier, is chargeable with the third error. It is appreciated that these errors are very serious in character.

I have discussed these errors, with the employees involved, and it has been indicated that they should be extremely careful in searching their prints and should endeavor to so handle their work that they may attain maximum accuracy, coupled with maximum speed.

The error in the case of Frank Miller, DeKalb County Police Department, Decatur, Georgia #729, Identification Unit file #148710, is chargeable to Mr. C. E. Hennrich, technical employee in the Unit. Mr. Hennrich initialed and dated the current print received from the DeKalb County Police Department, indicating that he had searched the print in a reference classification in which the "master" fingerprint card was located. Mr. Hennrich states that he does not think that he searched the print in this particular classification due to the fact that it is not in his assignment. However, the notation, which he placed on the print, covers the particular reference classification, and if Mr. Hennrich did not search the print in that classification his notation was such that the print was checked out of the Technical Section on the basis of his notation.

The error in the case of George Gray, DeKalb County Police Department, Decatur, Georgia #730, Identification Unit file #438732, is a straight "missed" identification, chargeable to Mr. H. H. Kneeland, student fingerprint classifier, who entered on duty in the Technical Section October 22, 1934. Mr. Kneeland could offer no explanation for this error.

DIVISION OF INVESTIGATION

U.S. DEPARTMENT OF JUSTICE
MAR 6 - 1935 A.

Memo for Mr. Tolson.

-2-

March 2, 1935.

The error in the case of George Brunson, DeKalb County Police Department, Decatur, Georgia #731, Identification Unit file #345411, was that of a "missed" identification on the part of Mr. I. H. Borgen, Student Fingerprint Classifier, who entered on duty in the Technical Section of the Identification Unit on August 20, 1934. Mr. Borgen miscounted the number of ridges appearing in the right thumb on the fingerprint card received from the DeKalb County Police Department. Mr. Borgen was shown the fingerprint card which he handled and after reviewing the card stated that the print was not correctly counted by him originally. In this connection, it is noted that the rolled impression of the right thumb shows considerable distortion so that some variation in the ridge count is noticeable. However, it is not believed that the condition of the current print was sufficiently bad to excuse the error in counting the ridges.

I have explained to these employees the serious nature of these errors and the embarrassment caused the Bureau in such instances. I have also pointed out in this connection the necessity for continuous exercise of diligence in searching fingerprint records so that the highest possible standard of accuracy may be maintained.

The Chief of Police at Decatur, Georgia was furnished the complete records under date of February 26, 1935 by air-mail, special delivery.

Respectfully,

L. C. Schilder.

5. HEALTH RECORD: Applicant states that his health record has been uniformly good except during April of 1934 when he suffered from pleural pneumonia, but from which he has completely recovered.

6. GENERAL IMPRESSIONS OF APPLICANT: This applicant is presently employed in the Identification Division as an Assistant Classifier, having been appointed in the Bureau in the Fingerprint Unit on February 3, 1934. Applicant attended high school at Sparta, Illinois, graduating in 1927, after which he came to Washington and attended National University for several years, first entering that institution in 1929. He withdrew from the University during his first year for financial reasons, but re-entered the University in 1931, pursuing a law course and would have graduated in June, 1934, had he not suffered an attack of pleural pneumonia, which necessitated a continued absence and resulted in his failure to graduate. Applicant, however, returned to the National University and obtained his L.L.B. degree in June of 1935. Applicant was recently admitted to the District of Columbia Bar, having taken the June examination.

This applicant was employed from February to August, 1929 as a stock clerk in the Parkway Motor Co., Washington, D.C. and served in a similar capacity from August 1929 to April, 1930 in the employment of the Washington Motor Company. He was engaged at the Bureau of Census as a clerk and in charge of files from April, 1930 to December, 1932, leaving this position because the work was completed. He was employed by the Welfare and Recreation Association of the District of Columbia from April to August, 1933 and by the Agricultural Adjustment Administration from August, 1933 to February, 1934, when he entered the Bureau's service. This applicant makes a fair appearance but after a few minutes conversation with him, creates a much more favorable impression than is given by first contact. He is not a member of any fraternal organization. Although but 26 years of age, the applicant appears considerably older. He is of the "plodder type", but possesses, I believe a tremendous amount of determination, aggressiveness, ambition and initiative. His application for employment in the Bureau is the result of a plan of personal advancement, which he worked out several years ago and has had the courage and determination to abide by, despite illness and other set-backs. I have examined the personnel file of this applicant and note that in an efficiency report submitted concerning him in November, 1934, his work as a Technical man in the Laboratory was entirely satisfactory, it being stated that in making searches through cabinets of more than average difficulty, his work was accurate and performed at a rate of speed much higher than the average.

I believe that this applicant would make a good Special Agent and accordingly recommend favorable consideration of his application.

Result of dictation test: Good. Fair. Poor.
Bureau test rating %.

7. Do you consider the Applicant qualified for the appointment he seeks and, if appointed, do you believe he would develop into better than an average employee? Yes

Inspector.

Dear Sir:-

Attached hereto, find a memorandum submitted by Special Agent J. B. Culbertson, of this office, dated January 3, 1936, concerning statements made by a Mr. South, regarding the Bureau and a recent training class for Special Agents.

I believe that Agent Culbertson should be complimented for recognizing the information as of considerable importance to you and I take this opportunity of hurrying it to you.

Very truly yours,

John A. Dowd

Look into this at once. If he has done all of this loose talking he should be let out. Also what about too strenuous a course. Thank Culbertson for reporting this.

Memorandum for Special Agent in Charge
John A. Dowd.
Omaha, Bureau Office
1-3-1936

On New Year's Eve (1936), I was introduced by acquaintances to a Mr. South who during the conversation I had with him informed me that he was employee of the U.S. Department of Commerce, working out from Washington, D. C.

On the night of January 2, 1936 I again met Mr. South while I was partaking of my dinner, at which time he joined me.

During the conversation had with him on that occasion he informed me that he was a nephew of South Trimble, Clerk of the U. S. House of Representatives; a cousin of a Mr. Trimble, Solicitor General of the U. S. Department of Commerce and for about 17 years with the Department of Commerce. He stated that he knew a lot about the Department of Justice (Federal Bureau of Investigation). Although he appeared to be given to exaggeration and while agent did not, at first give much heed to his utterances, he continued to speak about such matters.

He stated, among other things, that he and four other men, only one of whose names I recall and that one being an agent of this Bureau maintained an apartment at 19th. and I street, N. W., Washington, D. C.; he referred to the agent as "Carl", last name not remembered by me; that "Carl" was formerly with the Identification Unit of the Bureau, fingerprint section until such time as he completed his law studies at the National Law School which studies he recently completed whereupon he was made a special agent of the Bureau. That "Carl" recently completed a course of training at the Bureau's school and was recently, probably during this month transferred to a field office. He stated that "Carl" acted as an assistant to a "Mr. Clay", an inspector of the Bureau while the class of new trainees was at Quantico, Va., and that he was considered by "Mr. Clay" to be a fine agent. Mr. South further stated that three or four trainees were "fired" out of that particular training class and that one of the trainees who was dismissed was a former newspaper reporter from New York. That another member of the class, on a Sunday, took a "fit" and had to be sent to St. Elizabeths Hospital, Wash. D. C., Mental section for observation and that while he was considered "nuts", the Bureau maintained him on its payroll. He stated this unfortunate agent suffered from an hallucination that everyone in the Bureau was "down on him" and that the great strain which new trainees had to undergo was probably the cause of his breakdown. Mr. South stated that the agent who roomed with him was designated by "Mr. Clay" to visit the agent who was sent to St. Elizabeths for the purpose of talking with him and try to bring him back to normal.

2,

The writer is of the opinion that if the things Mr. South stated his roommate, agent "Carl" told him were, in fact, told him by the agent, the agent apparently engaged in loose talk, detrimental to the interests of the Bureau and matters which should not be made known to anyone. It appears that Mr. South is not one given to discreet utterances and it is likely that he, when with others, on occasions when conversation turns to the Bureau and its work, expresses himself in like manner to others. It would seem to me that the reference to the "breaking down" of a trainee because of great strain imposed by the Bureau's training course is a matter of gravity and I believe Mr. Hoover should be so advised of this information without delay.

Mr. R. Whitley,
Federal Bureau of Investigation,
U. S. Department of Justice,
370 Lexington Avenue, Room 1403,
New York City.

Dear Mr. Whitley:

The Bureau has received a report which indicates that Special Agent Carl E. Hennrich, who is attached to the New York Office, made certain derogatory comments during his training course in Washington, relative to certain phases of the Bureau's work. The following quoted paragraph from the report received covers the statements reported to have been made by this employee to a personal friend:

"He stated, among other things, that he and four other men, only one of whose names I recall and that one being an agent of this Bureau maintained an apartment at 19th and I Street, N.W., Washington, D.C.; he referred to the agent as 'Carl', last name not remembered by me; that 'Carl' was formerly with the Identification Unit of the Bureau, fingerprint section until such time as he completed his law studies at the National Law School which studies he recently completed whereupon he was made a special agent of the Bureau; that 'Carl' recently completed a course of training at the Bureau's school and was recently, probably during this month transferred to a field office. He stated that 'Carl' acted as an assistant to a 'Mr. Clay', an inspector of the Bureau while the class of new trainees was at Quantico, Va., and that he was considered by 'Mr. Clay' to be a fine agent. Mr. South further stated that three or four trainees were 'fired' out of that particular training class and that one of the trainees who was dismissed was a former newspaper reporter from New York. That another member of the class, on a Sunday, took a 'fit' and had to be sent to St. Elizabeths Hospital, Wash. He stated this unfortunate agent suffered from an hallucination that everyone in the Bureau was 'down on him' and that the great strain which new trainees had to undergo was probably the cause of his breakdown. Mr. South stated that the agent who roomed with him was designated by 'Mr. Clay' to visit the agent who was sent to St. Elizabeths for the purpose of talking with him and trying to bring him back to normal.

Of course, the statements made are entirely inconsistent with the facts. It is desired that you discuss this matter with Special Agent Hennrich, and that you inquire of him whether he made statements along this line while he was in Washington, and that you secure a memorandum report from him covering any explanation which he may desire to offer in this matter.

MEMORANDUM FOR THE DIRECTOR

RE: CLASS OF NEW SPECIAL AGENTS - OCTOBER 7, 1935
to JANUARY 4, 1936

The following are comments concerning members of the Training School for New Agents which began October 7, 1935, and which is due to end on January 4, 1936. The comments offered concerning these employees emphasize their weaknesses with a view to aiding the Director in determining the first offices of assignment.

In the event such information will be helpful, I have divided the class into three groups as far as their general all-round ability is concerned, Group I including the best men in the class, Group II the men believed to be only average, and Group III the men believed to be below average in ability.

Group I

Poster
Newson
Wheeler

Group II

Group III

Bryan

FRANK BRYAN

Age - 31; Legal residence - Rutledge, Tennessee; Office preference - Charlotte, Nashville, Louisville; Education - LL.B. degree.

Bryan is very nervous, is inclined to be a "lone wolf" and stays by himself quite a bit. Probably a loss during raids. Has had a nervous breakdown during class. Will need to be in a large office where there will be considerable necessary association with other Agents. Will require almost grand opera star treatment for a time because of his nervous condition. If he had not had the nervous breakdown during the course of the class, I would recommend that his services be dispensed with; however, this condition may warrant further sympathetic consideration. One of the larger southern offices with a sympathetic Special Agent in charge is recommended.

61

December 21, 1935.

JEROME DOYLE

Age - 26; Legal residence - New York City; Office preference - New York, Philadelphia, Boston; Education - A.B. and LL.B. degrees.

Doyle possesses a "New Yorker" air. He is rather intelligent and somewhat above average in self-confidence; is rather mature in thought and bearing. He is one of the best men in the class, who will get along in almost any territory, but it might be better to send him away from New York or New England in order to promote his development along broader lines.

LLOYD A. DUCOMMUN

Age - 26; Legal residence - Seattle, Washington; Office preference - Portland, Salt Lake City, San Francisco; Education - LL.B. degree.

His mentality and judgment are above average. He is easily embarrassed and blushes frequently. Would recommend an office where the Special Agent in Charge would take time to be helpful and stimulate confidence. Ducommun is about average, generally.

W. WILLIS FISHER

Age - 25; Legal residence - Washington, D. C.; Office preference - Washington, Charlotte, Nashville; Education - LL.B. degree.

Fisher is decidedly below average for the class. He is not very alert mentally and depends on others a great deal. He will need close supervision, not from a disciplinary standpoint, but because of his lack of outstanding capabilities which will probably cause him to be a slow starter. He seems unwilling to form opinions. It is understood that he has hemorrhoids; he has been out on occasions with colds and sinus trouble. The Agent in Charge at his first office should be willing to take plenty of time with this employee.

CHARLES A. HARDISON

Age - 27; Legal residence - Washington, D. C.; office preference - None; Education - LL.B. degree.

Hardison would be placed in the lower brackets of this class. It is hard for him to stay awake; he is not very fast mentally. He needs to be in a place where quick, vigorous, energetic action is frequently demanded and his Special Agent in Charge should be one who will inspire alertness. A small or medium-sized office is recommended.

December 21, 1935.

CARL E. HENNRICH

Age - 26; Legal residence - Randolph County, Illinois;
Office Preference - St. Louis, Denver, Dallas; Education, - LL.B. degree.

Henrich is one of the better men in the class and is somewhat above average generally, possessing rather good judgment. Has shown himself to be very good at conducting interviews. He is a fingerprint expert and will undoubtedly be able to adapt himself successfully in any territory where he may be assigned.

SAMUEL B. LANDRUM

Age - 24; Legal residence - Marlin, Texas; Office preference - Dallas, New Orleans, Denver; Education - A.B. and LL.B. degrees.

This Agent is in the upper fifty per cent of the class in general ability. He is inclined to be a little too technical about legal problems as is typical of recently graduated law students. He shows some prospects of further development although it is believed that a very practical Special Agent in Charge would be best for him and I think he will do well in any office of the Bureau.

JOHN H. McCULLOCH

Age - 23; Legal residence - Portland, Oregon; Office preference - Portland, Salt Lake City, San Francisco; Education - B.S. and LL.B. degrees.

McCulloch is quiet, but substantial. He is decidedly one of the better men of the class. He needs to develop some handshaking tendencies and a rural territory might aid him in developing a friendlier approach than would be the case if he were assigned to a territory where most contacts are short, snappy and very business-like. He is too much inclined that way at present. He is a good prospect, and with the above modifications he should do well in any office.

JOHN J. McGUIRE, JR.

Age - 26; Legal residence - New York City; Office preference - New York, Trenton, Buffalo; Education - A.B. and LL.B. degrees.

McGuire is just about average in mentality and general ability although he is possessed of a fair degree of self-confidence. Is addicted to a derby in a typical New York fashion. He needs to acquire informality. He refers to the younger lecturers before the training school as "that lad" which shows a rather impersonal attitude on his part which is typical of him. He is rather slow and would probably do better in a larger office, especially a northern office - the only exception I have in mind being Butte.

December 21, 1935.

ALBERT F. MAIER

Age - 27; Legal residence - White Haven, Pennsylvania; Office preference - Philadelphia, Los Angeles, Portland; Education - A.B. and LL.B. degrees.

This Agent is above average in mental qualifications and in judgment. He may develop along administrative lines. He is likeable but occasionally inclined to argue. He is something of a "play boy" but is energetic and I believe he will do well in almost any office.

GILBERT H. MEYER

Age - 29; Legal residence - Woodhaven, New York; Office preference - New York, New Orleans, Phoenix; Education - A.B. and LL.B. degrees.

This Agent is in the upper fifty per cent of the class in intelligence and in energy, but is not particularly outstanding. Until he becomes more adaptable, he is of the type which will probably do better north of the Mason and Dixon Line - from Boston to St. Paul.

WALTER M. MORRIS

Age - 26; Legal residence - Washington, D. C.; Office preference - Washington, Charlotte, Boston; Education - Ph.B. and LL.B. degrees.

This Agent is physically capable, is not excitable, leans too much on his superiors, asks many questions, and is no better than average mentally. He is lacking in assertiveness and vigor. A small office is recommended.

TOM E. NEAL

Age - 32; Legal residence - Austin, Texas; Office preference - Dallas, San Antonio, Denver; Education - High School - and Police Experience.

His lack of educational background is very obvious. He is a slow thinker and rarely asks questions. He is both a gum chewer and a gum popper. He will need an office and an Agent in Charge where he can get help. Would serve best in the crime zone or the Southwest.

LEWIS A. NEWSOM

Age - 29; Legal residence - Shreveport, Louisiana; Office preference - New Orleans, Little Rock, Birmingham; Education - LL.B. degree.

In relative standing of the class, Newsom rates either first or second. He makes a very good appearance, has good judgment, good legal knowledge, and

December 21, 1935.

seems to have some latent ability. I believe he would develop satisfactorily in any office, preferably not New York to begin with, however.

GORDON A. NICHOLSON

Age - 25; Legal residence - Salt Lake City; Office preference - Salt Lake City - or any office west of Denver; Education - LL.B. degree.

This Agent is hardly average in relative standing in his class. He asks a good many questions, however, and shows a desire to learn and it is believed he should be in a small office and in a small town where he can get help.

KENNETH A. PETTIJOHN

Age - 26; Legal residence - Sheridan, Indiana; Office preference - Aberdeen, Denver, Kansas City; Education - LL.B. degree.

This employee is below average mentally. He makes only a fairly favorable impression but is rather pleasant. Not outstanding in any capability. Would recommend smaller midwestern or southwestern office.

JAMES B. POSTER

Age - 30; Legal residence - Milwaukee, Wisconsin; Office preference - Milwaukee, Phoenix, St. Paul; Education - LL.B. degree.

This Agent is decidedly one of the best men in the class. He is rather substantial and sound, above average in prospects. He is better prepared and nearer ready to start work as an investigator than any other member of the class. I believe he will do satisfactory work in any office of the Bureau.

LESTER GINGMAN (A)

Age - 23; Legal residence - Washington, D. C.; Office preference - Washington, Chicago, New Orleans; Education - B.C.S. and M.C.S.

This Special Agent (A) possesses about average mentality, seems to have no trouble in understanding accounting discussions before the class. He might be inclined to "let down" if not watched. It is believed he will fit in best in the east and that quite a bit of tough work would be helpful.

December 21, 1936.

JOE U. WHEELER

Age - 25; Legal residence - Biloxi, Mississippi; Office preference - New Orleans, Birmingham, Nashville; Education - LL.B. degree.

Wheeler is one of the best men in the class; is decidedly above average; is a good mixer. He is inclined to do a little sky-larking occasionally, but is a rather good prospect. He is southern, and it is believed he will do well in the west, mid-west, and even in Chicago.

Respectfully,

H. E. Clegg.

Mr. J. Edgar Hoover,

Dear Mr. Hoover:

Reference is made to your letter of January 9, 1936, concerning report which indicates that Special Agent Carl E. Hennrich made certain derogatory comments during his training course in Washington relative to certain phases of the Bureau's work.

I have discussed this matter with Agent Hennrich and I am enclosing herewith copies of his memorandum of explanation, dated January 14, 1936.

During my conversation with him he stated that he had, on various occasions, discussed certain phases of the Bureau's work and activities, which he did not consider to be confidential in nature, with his room mate and with other members of his training class, but that none of his comments was intended to be critical or derogatory and that anyone who had placed such an interpretation on anything he had said was mistaken.

With reference to his alleged comments to the effect that "three or four trainees were 'fired' out of a particular training class", Agent Hennrich advised that he had heard that several trainees had been dismissed from one of the classes but that any comments he might have made in this connection could not have been construed as being critical because he had heard that the trainees were dismissed for conduct which entirely justified any disciplinary action taken.

Regarding the allegation that one of the members of the class "had to be sent to St. Elizabeths Hospital" for observation, Agent Hennrich informs me that there would be no occasion for him to have made such a remark since he knew, of his own personal knowledge, that the trainee had gone to the Emergency Hospital for treatment.

Agent Hennrich seems to be very much concerned about this matter and also appeared to be at a complete loss as to the source of the Bureau's information regarding him. I did not advise him in this connection. His memorandum, copies of which are attached, sets out the substance of the explanation furnished during my conversation with him.

MEMORANDUM FOR SPECIAL AGENT IN CHARGE:

This is in regard to statements alleged to have been made by me while in training school at Washington, D. C., to some one outside of the Bureau, as follows: "that four members of that class had been fired, and that one was a former New York newspaper man; that one member of the class had a fit and had to be sent to St. Elizabeth's Hospital because of over-work and that although he was considered to be 'nuts' he was retained in the employ of the Bureau."

The above statements are obviously inaccurate because the only information I have to the effect that four men had been dismissed from service in the Bureau is that they had been dismissed from some former class; also, that it is my information that the member of the class referred to as "having been sent to St. Elizabeth's Hospital and as having been considered as 'nuts'" was actually sent to Emergency Hospital in Washington because of some nervous disorder, and when I visited him there he informed me personally that while he himself was at first apprehensive of a mental disorder the doctors had assured him that his trouble was purely nerves, which diagnosis proved to be correct as he returned to duty in apparently good health in a few days. This particular member of the class I considered as a friend and I was at no time of the opinion that he was considered by anyone as "nuts."

The only persons to whom I can recall having made statements in regard to the above mentioned allegations were (first) to fellow members of my training class and older agents with whom I worked, and (second) to my room mate and former room mate, both of whom are in Government service and whom I consider friendly to the Bureau. Any discussion I may have had with fellow members of the class and with agents was intended to be of a constructive nature in considering Bureau policies. Any discussion I may have had with my room mate or former room mate was merely in the nature of current interest, and

both being friends of long standing were very much interested in my work and it was natural to mention unusual happenings.

I have never been of the impression that the Bureau's policies are unfair in any respect or that anyone employed by the Bureau was overworked. Consequently, the statements made by me were not intended as criticism of the Bureau or reflection on it in any respect.

The attitude of criticism or of unfairness toward the Bureau attributed to me is, I think, unjustified, and any remarks I may have made misconstrued.

MEMORANDUM FOR THE DIRECTOR

Re: Alleged Remarks by Special
Agent Carl E. Hennrich

Reference is made to the letter dated January 4, 1936, from the Omaha Office, together with information furnished by Special Agent Culbertson relative to certain indiscreet remarks made by Special Agent Carl E. Hennrich. The correspondence, including a letter from Special Agent in Charge Dowd, the memorandum of Agent Culbertson, the letter from the New York Office, to which is attached a memorandum from Special Agent Hennrich, are attached hereto.

With reference to the statement that Agent Hennrich acted as an assistant to a "Mr. Clay" apparently referring to the undersigned, this is to advise that Agent Hennrich at no time occupied any capacity other than that of Special Agent trainee and he was at no time assigned to be of assistance in any capacity different from that of each Agent in the class. I have learned that while he was at Quantico with Mr. Baughman, he was not called upon to render any service that could in any way be characterized as an assistant. If this allegation is true and Agent Hennrich has been making such statements he is apparently trying to impress someone with his importance and the statements are not based on fact.

With reference to the remark that "Mr. Clay" considered him a fine Agent, at no time was any indication given of this nature, until the day Agent Hennrich departed for New York and, as a matter of encouragement, he was told that with his experience in the Bureau and with the training that had been afforded him there was a sincere hope being entertained by the Bureau that he would make a good Agent and that he would make rapid progress.

Agent Hennrich was not designated by me to go to any hospital to take care of Agent Bryan who was ill a part of the time. The fact is that, when Agent Bryan had to go to the hospital, I was out of town and was absent for several days during this period. Of course, the statement that a former newspaper reporter from New York and three or four other trainees were dismissed from the same class is not true, as the former reporter from New York - Agent O'Hare - was the only member of the class in question who was dropped from the rolls. Five Agents were dropped from the rolls of the previous class - all for good and sufficient reasons.

67-371-58
JAN 27 1936
HHC

January 20, 1936.

With reference to the great strain imposed on the trainees attending the Bureau's training schools, there is no doubt in the world but what these men are called upon to work. The course is not a snap and is not intended to be. I would certainly say that any Agent who considers himself subjected to any unbearable strain while attending the training school would not be able to carry on duties which are at times more arduous in the field and I believe that the course should be sufficiently hard that it will eliminate those who are unfit as far as volume of work is concerned during the course of the training school.

During the first four weeks of the training school sessions when the Manual of Rules and Regulations is taught, the policies, rules and regulations are presented to the trainees almost on a silver platter, so detailed are the explanations and instructions. The Agents are only required to study during this period and they can keep abreast of the Manual of Rules and Regulations by spending a few minutes studying each day. Following the study of the Manual the trainees go to Quantico where there is a variation in the type of work in which they have been previously engaged. This outdoor exercise and training furnishes a type of relaxation and at the same time a type of profitable study and training. Then the training covering the Manual of Instructions is started, along with fingerprint identification and laboratory work. These subjects are alternated sufficiently to offer no unusual strain, although much more work is required of the trainees during this period than during the first five weeks. During this time the trainees certainly should have been able to adjust themselves to the routine of classroom study.

I do not consider that the course is too strenuous, particularly since a forty-five minute physical exercise period is ordinarily provided and even since the gymnasium has not been used, the trainees have, for the most part, been getting this period of relaxation. During the time they practice jiu jitsu and defensive methods.

There is attached hereto a letter addressed to Special Agent Culbertson expressing appreciation for his kindness in furnishing this information.

Respectfully,

H. H. Clegg.

New York, New York.

Dear Sir:

I desire to advise you that the Bureau has received from the Public Health Service a summary of the physical examination taken by you on December 10, 1935 at Washington, D. C.

From a review of the physical report in question it is noted that you have slight to moderate hemorrhoids; flat foot, first degree; and impaired vision which, however, is corrected by the use of glasses.

The dental examiner recommends necessary operative work.

It is suggested that appropriate corrective measures be taken by you concerning the suggested treatment above mentioned and that the Bureau be advised.

Very truly yours,

John Edgar Hoover,
Director.

Re: SPECIAL AGENT C. E. HENNRICH
Special Efficiency Report

Dear Sir:

Agent Hennrich reported to the New York Office from the Bureau's training school on January 6, 1936 for assignment. He has been given miscellaneous assignments from time to time of the more routine classifications. He makes a fair appearance and impression, seems to be interested in his work, and has applied himself diligently. Agent Hennrich is rather mature in appearance and actions. I believe that he possesses good judgment and that he will, with more experience, develop initiative and self-confidence.

He is qualified in the use of firearms. However, I do not believe that he will be qualified to handle assignments involving raids and the more dangerous types of criminals until he has had further experience.

I believe that his development, considering his limited field service, has been about average and that he will continue to develop into a satisfactory Agent.

Very truly yours,

R. Whitley

REMARKS

Mr. Whitley states this agent makes a fair appearance and impression; seems to be interested; has applied himself energetically; is rather mature in appearance and actions; is possessed of average judgment, initiative, and self-confidence; is well qualified in the use of fire-arms and he feels he would be effective for dangerous assignments; his dictation and paper work are about average; he is well qualified to handle a car; he does not possess executive possibilities; he is a good average agent, who should continue to develop and improve.

Mr. Nathan stated in March, 1936, that this agent was extremely new and he could discern nothing particularly outstanding about him; that he is no better than average, if that.

In January, 1936, Inspector Clegg, following the training course, stated this agent appears to be above average in intelligence; is possessed of good sound judgment; is fairly well assured; is energetic; alert; tactful; amenable to discipline and he indicated some possibility of development.

In arriving at the above rating for an employee, consider each of the ten qualifications separately. In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Fair, Good, and Excellent. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Agent Hennrich makes a fair appearance and impression, seems to be interested in his work, and has applied himself energetically to his duties. He is rather mature in appearance and actions. I believe that he possesses average judgment, initiative, and self-confidence. He has handled miscellaneous classifications of work in a satisfactory manner and with a minimum of supervision, considering his limited experience. I have had no opportunity to hear him testify or to observe his typing ability. He is well qualified in the use of firearms and I believe that he would function effectively on raids or assignments involving dangerous criminals. His dictation and paper work are about average. He is well qualified to handle a car. I do not believe that he possesses any executive possibilities.

I consider him a good average Agent who will continue to develop and improve with further experience.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? Yes

Re: White Slave cases

Sir:

You are aware, of course, that we have recently concluded presentation of some thirty-seven cases involving the White Slave traffic, of which doubtless Agents Turrou and Hennrich of your department have made a full report.

The object of this letter is to express to you our appreciation of the thorough and painstaking work of Messrs. Turrou and Hennrich in pursuing their investigation and in cooperating with my assistant, Mr. George H. Cohen, in preparing and presenting the cases for trial.

It was due, I think, largely to the efficient team-work of Messrs. Turrou and Hennrich with Mr. Cohen that only one of the thirty-seven accused elected to go to trial. All the rest preferred to plead guilty and throw themselves on the mercy of the Court when they discovered the thoroughness with which their transgressions had been uncovered by the investigation.

It will be no surprise to you to learn that the representatives of your department left a splendid impression in Connecticut, not only with our department but with the Court and with the representatives of the state and local police, with whom they came into rather close contact.

REMARKS

From letter sent 11/26/36 W.D.Q.

Mr. Whitley states that Hennrich makes a fair appearance and impression, seems to have a good knowledge of all his duties, appears to have common sense and good judgment and does not hesitate to take appropriate action on his own responsibility when necessary. He is aggressive, determined and energetic. His investigations are thorough and his reports well organized and comprehensive. His dictation is average. He appears to be sincerely interested and Mr. Whitley considers him loyal and dependable. Mr. Whitley does not believe that he possesses any executive possibilities. He has not had an opportunity to observe him testify nor to observe his typing ability. He is qualified in the use of firearms and it is believed that he is the type that would function effectively on dangerous assignments. He is a qualified automobile driver. It is believed that his development is beyond the average and that he will continue to develop into a good or better than average agent. His work in connection with the White Slave Traffic Act investigations in the State of Connecticut is very successful and he has functioned with a minimum of supervision.

In a memorandum dated August 12 the Director stated that he had good technical ability, but his attitude was fair minus.

RECOMMENDATION

I recommend that he be reallocated to grade Caf 10, \$3500;

MEMORANDUM FOR THE DIRECTOR

I have indicated to SAC Hottel and Agents Turrou and Hennrich the Bureau's complete dissatisfaction with the manner in which the Baltimore White Slave Traffic Act case is being handled, pointing out to them that too many things are happening in Baltimore upon which the Bureau is not promptly, if ever, advised. I informed Mr. Hottel that there appeared to be some lack of discipline in the administration and supervision of the work of the Agents engaged on this case and I informed him that the Director had described himself as being sick and tired of the manner in which the case is being handled. I pointed out to these men that the events occurring in a Commissioner's Hearing on Wednesday afternoon insinuating irregularity on the part of a Bureau Agent appeared in the Thursday morning paper and the Bureau knew nothing about the incident until the newspaper article came to the Bureau's attention and inquiries had been made. I pointed out to these men that they were still working for the Bureau and that they would have to continue to work for the Bureau after this case was completed. Consequently, if they were unable to carry out the Bureau's instructions and desires in this case, the Bureau would take appropriate steps to place men in charge of the investigation who would carry out the Director's wishes.

I instructed Mr. Hottel to have on my desk at 9 A. M. each morning a memorandum containing any details of interest which had occurred during the previous night, including explanation and comment upon any newspaper articles appearing in the papers about the case. I told Mr. Hottel that I desired a similar memorandum at 4:30 in the afternoon and that, of course, if any special or unusual occurrences developed, additional notification should immediately be transmitted to me.

I informed Turrou and Hennrich that although the Director had considered using their services on other special assignments in other cities, it was the Director's present view that if these men were unable to keep the Bureau notified of what was going on in a case only thirty miles from the Seat of Government, he could obviously expect little or nothing from them in a case which might center in some distant city.

Respectfully,

E. A. Tamm.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund and who may lose his life by violence in line of official duty, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10), made payable to the Chief Clerk of said Bureau, to be included in said fund. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping, and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Special Agent Hennrich reported for special assignment at the Washington Field Division on February 21, 1937 in connection with the investigation at Baltimore, Maryland of the case entitled, "Paul Chille, w.a., etal White Slave Traffic Act". Agent Hennrich and Agent L. G. Turrou were specifically designated by the Bureau to handle the investigation in this case.

In my opinion, Agent Hennrich has done an excellent piece of work in connection with the above mentioned case.

This employee uses good common sense in the discharge of his duties. He has initiative; is aggressive and applies himself to his work. He is accurate in his details. He makes a good impression on others; presents a neat appearance; has a pleasing personality and is amenable to discipline. I am sure that he is loyal to the Bureau. During the course of his assignment here, Agent Hennrich has performed considerable overtime work.

Agent Hennrich is a good automobile driver; dictates well and makes an excellent witness in Court. It is my belief that he is qualified in the use of firearms. Agent Hennrich was designated as a leader of one of the squads conducting the raids recently at Baltimore in connection with the case mentioned herein and performed his duties most creditably, and demonstrated his ability to be used on dangerous assignments and in the apprehension of dangerous criminals.

It is my opinion that this employee possesses a certain amount of leadership.

Have the contents of this report under the heading "Remarks" been read in full to the employee to whom they relate, and has the employee been informed as to the status reflected on the reverse side of this report? YES

MEMORANDUM FOR MR. TOLSON.

Special Agent Carl E. Hennrich, who is on special assignment at Baltimore, dropped by the office this morning and stated that his wife is now residing in Washington and is in a delicate condition and that she will probably give birth to a child during the latter part of August or September and that from all indications it will possibly be a Caesarean birth. He stated that while he was most reluctant to make any request, he would appreciate it greatly in view of the condition of his wife if he could remain in the vicinity of Washington until after the emergency was over.

I advised Mr. Hennrich that his request would be called to your attention and we would advise him sometime during the coming week.

Dear Sir:

In accordance with Bureau letter dated June 30, 1937, Special Agent Carl E. Hennrich reported to this Division for assignment on that date.

According to Section 34 of the Manual of Rules and Regulations, it now becomes my duty to submit a thirty day report on Agent Hennrich.

However, since Agent Hennrich reported for special assignment to this Division on February 21, 1937 in connection with the investigation of the case entitled, "Paul Chille, et al, White Slave Traffic Act, Perjury", being still so assigned and I submitted a semi-annual efficiency report on this employee as of May 19, 1937, by Bureau request, the usual thirty day report, above mentioned, will not be submitted at this time, unless instructions to the contrary are received. The regular semi-annual efficiency report will be submitted as of November 1, 1937.

Dear Mr. Hottel:

At the firearms training held by your office on July 13, 1937, it is noted that unsatisfactory scores were made as indicated below:

It is desired that at the next firearms training period you afford special training along the lines indicated by the above scores in order that the ability of the Special Agents of your office to properly function with these weapons may be improved.

The Bureau desires that you give to this matter your personal attention in order that the agents assigned to your office may be enabled to meet the Bureau's requirements.

INSPECTOR CONROY:

This Agent was on special assignment from Boston, Massachusetts, when first examined, but has been transferred to the Washington Field Division since. He has been on special assignments almost exclusively since his appointment as a Special Agent. He has apparently developed rapidly. He is rather impressive, and much better than the average man of his experience. I am inclined to believe that to complete his experience he should be placed on general assignment for a period of time in order that he may become well rounded. This would afford the Special Agent in Charge and the Bureau an opportunity to observe his possibilities. On tests given him he secured a grade of 100% both on the Manual of Rules and Regulations and the Manual of Instructions.

Dear Mr. Hoover:

On this, the concluding day of the tenure of office of the May Term - 1937 - Grand Jury, I should be remiss were I not, in this manner, again to extend to you not only full expressions of my appreciation, but of my unbounded admiration for you and all that you and your men represent.

Our final report, a copy of which will be dispatched to you late in October after it has been mimeographed at St. Mary's Industrial School will please you, I think, because encompassed therein is, I believe, some progressive material. But more particularly of interest to you, perhaps, will be the definite recommendation of this Grand Jury to the Supreme Bench of Baltimore City that hereafter no member of the Baltimore Police Department shall be promoted until the individual has been graduated from the F.B.I. National Police Academy, and holds a certificate therefrom.

Again, in this manner, allow me to extend to you my own and the Grand Jury's appreciation for the gracious hospitality you so kindly accorded to us on the day we had the privilege of paying a visit to the Federal Bureau of Investigation.

Also, this Grand Jury went on record directing me to convey to you commendation on the work of the Federal Bureau of Investigation in connection with the white slave traffic here in Baltimore and of the work of Mr. Leon G. Turrou and Mr. Carl Henrichs.

My final report sums up many things better than does this communication, but let me say, in this connection, that this Nation can be proud of John Edgar Hoover for his leadership and for his inspiration to the men of the Federal Bureau of Investigation.

I am sailing on Thursday on the S.S. City of Baltimore for a little trip to Europe, but immediately upon my return to Baltimore in late October, I shall see that a copy of this report is dispatched to you.

With high regards.

Respectfully yours,

(S) R. E. Vining

STATE'S ATTORNEY OF BALTIMORE CITY
J. Bernard Wells

Baltimore

Nov. 15, 1937

Hon. J. Edgar Hoover,
Director, Federal Bureau of Investigation,
U.S. Dept. of Justice,
Washington, D. C.

My dear Mr. Hoover:

On last Friday, November 12th, we disposed of the last of our cases, growing out of the vice investigation, His Honor, Judge Eugene O'Dunne, meting out sentences of either imprisonment or fine to the various persons convicted.

We feel quite satisfied with the result generally. Most of the indictments resulted in convictions, and the few cases, wherein there were acquittals, were indicted against the judgment of this office. I am sure that we have established, through these cases, certain standards of conduct in our community, which will prove wholesome for some time to come.

I especially wish to thank you for your cooperation, and that of the men associated with you in the Federal Bureau of Investigation, whom you assigned to this matter.

Messrs. Turrou, Hennrichs and Ellsworth were untiring and most efficient in their efforts, and rendered valuable assistance to the State of Maryland, not to mention Messrs. Trapani, Bellini, Ransome, Scott, Wade and McGuire. It was a real pleasure to be associated with men so thorough and high purposed in their approach to their duty. While I have always had the highest respect for the FBI., these recent contacts have afforded a pleasant confirmation of that early opinion.

Again thanking you, and with kindest personal regards,
I am

Very truly yours,

J. Bernard Wells

REMARKS

SAC Hottel states that Hennrich is a hard worker and a resourceful investigator; that he appears to have good common sense and judgment; that his work during his assignment at the Washington Field Division has been confined exclusively to the violations of the WSTA. Mr. Hottel states he believes Hennrich is quick-witted and resourceful enough to handle any investigative work; that he possesses initiative and force; applies himself; is thorough; has a pleasing personality; is loyal; is good in the use of firearms; is an excellent automobile driver; is an excellent dictator and an excellent Government witness; his average overtime per month is 163 hours, which is nearly twice that performed by the other agents. He states Hennrich has the ability to work with and for others; he is amenable to discipline. He believes that Hennrich should be given more general assignment work so that his ability in all phases of the Bureau's work can be developed. At present, Hennrich is working on the Atlantic City white slave traffic cases.

Inspector Conroy in July, 1937, stated that this agent apparently had developed rapidly; that he is rather impressive and much better than the average man of his experience. Mr. Conroy felt that this agent should be placed on general assignment for a period of time in order that he might become well rounded in handling the Bureau's work.

RECOMMENDATION

I recommend a promotion of \$200. I am attaching a letter to SAC Hottel instructing that upon the return of Agent Hennrich from the special assignment in New Jersey, he be given experience in general work.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Special Agent Carl E. Hennrich has been in the service of the Bureau for over three and one-half years. He is a hard worker and a resourceful investigator. He appears to have good common sense and judgment; however, his work during his assignment to this Office has been confined to the violations of the White Slave Traffic Act. Therefore this Agent's ability to handle other investigations is practically unknown to me but I believe that he is quick witted and resourceful enough to handle any investigative work which may arise. He possesses initiative and force, applies himself to his work, is thorough in his investigations, possesses a pleasing personality, presents a neat appearance and I am sure is loyal to the Bureau.

This Agent is considered good in the use of firearms, is an excellent automobile driver, is rated as an excellent dictator by the stenographers who rank him second among the other Agents. I consider him an excellent Government witness, having heard him testify on numerous occasions during the recent White Slave Traffic Act case at Baltimore, Maryland. His average overtime per month is 163 hours which is nearly twice that performed by the other Agents. Agent Hennrich has the ability to work with and for others. He is amenable to discipline.

It is my belief that this Agent should be given more general assignment work so that his ability in all phases of the Bureau's work can be developed. At the present time, Agent Hennrich is working on the White Slave Traffic Act case at Atlantic City.

I consider Agent Hennrich an excellent investigator in violations of the White Slave Traffic Act.

Have the contents of this report under the heading "Remarks" been read in full to the employee to whom they relate, and has the employee been informed as to the status reflected on the reverse side of this report? Upon Agent's arrival at headquarters, report will be read to him and the Bureau notified accordingly.

MEMORANDUM FOR THE DIRECTOR

RE: SPECIAL AGENT C. E. HENNRICH

I was particularly impressed with the ready grasp which this Agent had of the White Slave Traffic Act cases in Miami and of the sound suggestions and opinions offered by him. I believe that this man is developing to the point where he may receive serious consideration for additional responsibilities. His experience has been confined for the last year or so to White Slave Traffic Act cases almost entirely and I do not believe that he should be taken out of Miami for the next month or so, but I feel that he indicates definite possibilities for advancement along administrative and executive lines.

Respectfully,

THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

PERSONAL ATTENTION

Mr. G. Hottel,
Federal Bureau of Investigation,
U. S. Department of Justice,
2266 U. S. Department of Justice Building,
Washington, D. C.

Dear Mr. Hottel:

Your attention is directed to the firearms training record of Special Agent C. E. Hennrich. Agent Hennrich obtained a score of 47.2 in the Practical Pistol Course in July, 1937. On no other occasion did he qualify in the course.

It is noted that Agent Hennrich was on special assignment during the greater portion of the year and that he was not afforded an opportunity to take the prescribed training. Accordingly, the Bureau desires that you pay particular attention to the firearms training of this Agent, in order that he may be given an opportunity to take training regularly. It is especially important that he attend the next firearms training period held in your division and that special efforts be made to qualify him in the Practical Pistol Course, as well as in the use of the Bureau's other weapons. Particular attention should be paid to the .30'06 rifle, the Colt Monitor automatic rifle, and the .351 rifle, in the use of which Agent Hennrich did not qualify during 1937.

Very truly yours,

It is also advised that Agent Hennrich will be given further personal supervision and instruction during the next quarterly firearms practice to be afforded at Quantico, Virginia in the use of the .30'06 rifle, the Colt Monitor automatic rifle, and the .351 rifle which Agent Hennrich did not qualify in during 1937.

The following are the composite ratings of the Special Agents attending the Administrative School in the order of their relative ability to serve as Special Agents in Charge as rated by the members of the Executive Conference.

Mr. Tamm has not had an opportunity to see any of the members of this group and will submit his ratings tomorrow.

The composite ratings were obtained by adding the total of the individual ratings and dividing by the number of rating officers. The employee having the lowest rating, therefore, would rank first.

RE: SPECIAL AGENT C. E. HENNRICH
EFFICIENCY REPORT

Dear Sir:

Reference is made to my Efficiency Report dated
 May 1, 1938 submitted on this employee.

It is my belief that Agent Hennrich could most
 creditably handle the duties of a Number One Man in some
 Field Office. He has recently attended the special administra-
 tive school and I believe he should be given the opportunity
 of determining whether he possesses administrative ability, and,
 if the opportunity arises, he be given the assignment of a
 Number One Man in a Field Office.

Very truly yours,

Guy Hottel

Thirty Day Report

Mr. Hennrich reported to the Investigative Division on May 31, 1938, and since that time has been assigned to the supervision of National Motor Vehicle Theft Act cases. For this reason, an additional report will be submitted upon this supervisor in thirty days.

REMARKS

SAC Hottel reports Agent possesses the ability to analyze cases and to carry them through to a logical conclusion, is well versed concerning his duties, uses good common sense, possesses initiative and force, is thorough and works without supervision. He makes a good appearance, has a pleasing personality, is very good in dictation, is an excellent automobile driver, is natural in the use of firearms, could be used on dangerous assignments, makes an excellent witness and has averaged 141 hours overtime per month recently. He is suitable for involved cases, possesses a certain amount of executive ability, is loyal, amenable to discipline and with continued experience will develop into an outstanding Agent.

On January 14, 1938, Mr. Tamm reported he was particularly impressed with the ready grasp Agent had of certain White Slave Traffic Act cases and of the sound suggestions and opinions offered by him, and that Agent is developing to a point where he might receive serious consideration for additional responsibilities.

JUL 30 1938 62-32786-111
At the conclusion of an Administrative Class ending in March, 1938, Mr. Clegg reported Agent makes a fairly good personal appearance, is not outstandingly impressive, however, has a good technical knowledge and background in fingerprint work, but does not have sufficient substance.

forcefulness and positiveness to make a satisfactory SAC. He was rated "Fair" as an Administrative Officer, "Good" as an Investigator and "Poor" as a salesman. Agent received a composite rating of 10 out of 15 Agents rated as to his relative ability to serve as an Agent in Charge.

On May 1, 1938, Mr. Hottel, by letter, submitted an efficiency report in which he stated Agent could most creditably handle the duties of a Number One Man in some Field Office. Agent is under transfer to the Seat of Government at the present time.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

This Agent possesses the ability to analyze cases and to carry them through to a logical conclusion. He is well versed concerning the duties of his position. He uses good common sense in his investigations and possesses initiative and force. He is possessed of good health. He is thorough in his investigations and has the ability to work without supervision. He makes a good appearance, has a pleasing personality, is considered a very good dictator by the Stenographers who rank him second among the Agents of this Office. He is an excellent automobile driver, is natural in the use of firearms and could be used on dangerous assignments. He makes an excellent Government witness. His average overtime per month during this period was 141 hours which is above the Office average.

I believe that he could handle involved cases, especially violations of the White Slave Traffic Act, having had a great deal of experience in this type of case. I believe that he possesses a certain amount of executive ability in that he can work with and for others and command the respect of others.

Since his return to this District from special assignments, Agent Hennrich has been handling general assignments and his work has been performed in an efficient manner. He is loyal to the Bureau and amenable to discipline. I believe that with continued experience he will develop into an outstanding Agent.

Have the contents of this report under the heading "Remarks" been read in full to the employee to whom they relate, and has the employee been informed as to the status reflected on the reverse side of this report? YES.

MEMORANDUM FOR MR. NATHAN

RE: C. E. HENNRICH
30-day report

The following report is submitted upon the completion of thirty days' supervision of the Technical Section by the above-named employee:

I am more than pleased with the great interest which Hennrich has displayed and the initiative which he has shown in learning the work of the Technical Section. Hennrich impresses me as being intensely loyal to the Bureau and in his contact with the technical employees he is doing everything in his power to "sell" the Bureau to them. He has displayed a good technical knowledge and I believe is developing himself into an extremely good fingerprint man, taking into consideration the fact that he has been away from fingerprint work for such a long period. Hennrich has a good personality and gets along with the personnel in the Technical Section very well. He could, in my opinion, use more force in his handling of the personnel and at the present time I believe he has a tendency to let the employee with whom he is talking or reprimanding, sell him (Hennrich) on the idea that the employee is trying extremely hard to get along and work to the best interests of the Bureau.

I do not believe that Hennrich delves deeply enough into the employee's background when recommending a reprimand or scoring of errors and rather than take strict disciplinary action, lets the conversation of the employee sway him in his judgments.

I believe that Hennrich has in the 30 days he has been here demonstrated the fact that he is capable of handling the Technical Section in an excellent manner and as time goes along, he will develop into an extremely valuable employee in this Bureau.

Respectfully,

Quinn Tamm

MEMORANDUM FOR THE DIRECTOR

RE: CARL E. HENNRICH,
Special Agent

I spoke to Mr. Hennrich relative to the attached report made by Mr. Q. Tamm, and discussed it with him in detail. I agree with Mr. Tamm's favorable impression of Mr. Hennrich and have been particularly pleased with the way he has handled himself.

I went into detail with him in connection with the criticism to the effect that he does not delve sufficiently into an employee's background. He stated he believed this was true in the case of one employee, but that the information in question did not appear in the employee's Identification Division file, to which he was confined. I suggested that he talk with Mr. Tamm further about the reference to employees swaying his judgment, inasmuch as he was not certain what was meant. I told him an executive should permit his judgment to be swayed to the extent that it should be swayed; that is, he should have an open mind in talking with employees and be absolutely impartial, judicial, et cetera.

I think Hennrich has excellent possibilities along executive lines.

MEMORANDUM FOR THE DIRECTOR

RE: TRAINING OF STUDENT
FINGERPRINT CLASSIFIERS

Mr. Hennrich, Mr. Engert, and I have held several conferences relative to changing the manner of training student fingerprint employees in the Technical Section. It is believed a method can be worked out whereby these employees will not only be instructed in the fundamentals of fingerprint identification, but also in the policies of the Bureau.

Mr. Hennrich has suggested, and I believe his suggestion has merit, that at least one day be devoted to instruction in the jurisdiction and policies of the Bureau. Obviously this appears necessary, as indicated by one employee who last week wrote to the SAC of the Butte Field Division requesting a position as a fingerprint man in the Butte Office. The employees in the Technical Section have very little knowledge of the manner in which the work of the Bureau is conducted, of the Bureau's policies or the jurisdiction of the Bureau itself.

If possible, it is suggested that appointments of student fingerprint classifiers be held pending until such a time as five appointments are ready to go forward, and then these five appointments be offered, so that instruction can be given in groups of five men, at least. I have discussed this matter with Mr. Crowl who informs me that it is impractical because of the fact that if the appointments go out on the same date there is no guarantee that the men will report at the same time. I believe this can be handled by making the appointments returnable on a certain date, in the same manner as the appointments of Agents are handled.

If we could receive new employees in groups of five a complete day could be devoted to a lecture on the Bureau and I believe that such a lecture should be given by one of the Bureau officials in an attempt to start the new employees off with the proper Bureau attitude. It is difficult to instill into the employees of the Technical Section the proper morale if the teaching and contacts which they have upon reporting for duty are simply older employees who may not themselves have been instilled with the proper Bureau attitude. I believe that a lecture on Bureau policies and Bureau principles could be given by someone such as Mr. Nichols and that it would serve to bolster the morale of the Technical Section.

MEMORANDUM FOR MR. NATHAN

RE: DEAD FILE

There have been called to my attention recently several instances of individuals whose ages from their fingerprint records would indicate that they are over 100 years old and which fingerprints are still filed in the active criminal files.

The policy in past years was to stamp these prints "Dead" after they had reached the age of 90 years, but to retain them in the section of the files known as the obsolete group. This obsolete group consists of the fingerprints of persons whose ages are 60 years or more. It is a rare occasion when fingerprints are received for individuals whose ages are over 80 years, and in order to alleviate, even to a small degree, the congestion in the main criminal files, I believe we should remove the prints of all persons over 90 years of age and place them forthwith in the dead files.

If necessary thereafter, searches could still be made against the dead files in order to ascertain whether a particular individual has a past record since the dead files are also filed by fingerprint classification.

Respectfully,

C. E. Hennrich

ADDENDUM: 3/11/39 I recommend that these prints be removed from the obsolete file and placed in the dead file.

MEMORANDUM FOR MR. NATHAN

Reference is made to my memorandum dated January 20, 1939, concerning a missed identification of a fugitive in which Mr. Harry DeWoody and Mr. E. D. Zeigler of the Technical Section were involved.

It is noted that the letter which was received from the Sheriff's Office at Twin Falls, Idaho on January 3, 1939, in which the consolidation was called to our attention, was not handled until January 12, 1939, this because of the "after Christmas" delinquency in the Identification Division. After handling, the file was routed to me on the 13th of January and the error was discussed with the employees involved who submitter memoranda which were not typed until the 16th. My memorandum concerning this matter was submitted on January 20th and because of Mr. Quinn Tamm's absence from the City, was not handled by him until January 24th.

This memorandum is being submitted in view of the unusual period of time elapsing from the time when the error was called to out attention until the recommendation for administrative action against the persons involved was submitted.

Respectfully,

/s/ C. E. Hennrich/
C. E. Hennrich

1/31/39 - Regardless of the foregoing, i.e., the fact that I was out of town and the after-Christmas delinquency, it is definitely agreed that there was a delinquency in the handling of this matter. Every effort will be made to see that it does not ovvur again.

Quinn Tamm

1/31/39-

I concur in Mr. Quinn Tamm's statement.

H. Nathan

CH

67-443-3434

With respect to Supervisor Hennrich, I have been advised that Mr. Simpson and Miss Dawson have some difficulty in getting the necessary flow of work from the Technical Section to the clerical sections of the Identification Division. I was also confidentially advised that Mr. Hennrich spends a great deal of his time at ~~his~~ his desk and that he does not seem to be out on the floor enough of the time. Mr. Nathan and Mr. Q. Tamm feel that this is an improper criticism. They say that Mr. Hennrich spends almost all of his time on the floor and he has done very good work in coordinating efforts in the Technical Section.

It seems very difficult to coordinate statements made by various officials and employees in the Identification Division. I think Mr. Simpson's trouble is due to an unfortunate personality. He states frankly he does not try to make friends of persons with whom he has to deal officially but that he insists upon the employees working all of the time and he earnestly endeavors to keep the work moving. There certainly are too many personality clashes in the Identification Division. I think that the Division needs another inspection and that such inspection should particularly concern itself with the system of supervision and with the qualifications of both the agent and clerical supervisors on the top floor.

I suggest no action with respect to Mr. Simpson until after a complete re-inspection has been made, at which time it may be possible to more definitely determine whether the current difficulties in the Identification Division are due to inefficiency on the part of Mr. Simpson and other clerical supervisors or because of the failure of the agent supervisors to function. I am inclined to believe that Mr. Schlenker, at least, is not particularly well qualified for supervisory work. I say this in view of the incident which occurred some weeks ago when he was smoking in his office in the Identification Division on Saturday afternoon and when he attempted to conceal his violation of the instructions with respect to smoking.

Respectfully,

Clyde Tolson

Reference is made to the memorandum from the Director dated April 18, 1939, outlining the scheduled hours for gymnasium.

It is noted that from the hours of 3 - 4, Messrs. Engert and Hennrich are both assigned to attend gymnasium. The practice in the Identification Division is to have at least one of these supervisors on the floor in the Technical Section at all times. In view of the fact that the Technical Section working day is over at 4:00 o'clock, I wish to suggest that Messrs. Engert and Hennrich be permitted to attend gymnasium from 4 - 5.

In this connection it is noted that I am scheduled to attend from 4 - 5, and I would suggest that I be permitted to attend gymnasium from 3 - 4, if the change in the hours scheduled for Messrs. Engert and Hennrich is approved.

K. M. Piper

The first three are recommended in order for them to receive instruction to enable them to become instructors in fingerprint identification work as only Messrs. Engert, Potter and Hince are now considered eligible for this type of instruction.

Special Agents Thornton and McNulty have shown promise in developing along general lines in law enforcement training work and Special Agent Piper particularly in the field of firearms instruction.

It is observed that Special Agent H. W. Acers has been transferred to the Bureau. I personally think he is more valuable in the field than he could ever be on a desk. It is recommended that he be permitted to attend the Instructors' School so that he will have had the benefit of this course of training which perhaps will not be repeated at any early date.

It is likewise recommended that Special Agent P. Wyly attend the same school since he has shown himself to be very proficient as an instructor in firearms and police types of work and there is a definite shortage of this type of instructor in the field.

Respectfully,

H. H. Clegg

Dear Mr. Hoover:

Reference is made to your letter of June 15, 1939, requesting that suggestions be submitted at this time for the improvement of the Bureau's service.

My attention has recently been directed to the fact that it is occasionally necessary for supervisors in Division One of the Bureau to obtain from the Identification Division the jackets of individuals who are under investigation by the Bureau. There is at present a rule requiring that these jackets be returned to the Identification Division at the close of business on the day on which they were obtained. Several instances have recently occurred when it was necessary to locate the jackets which had been in the Investigative Division and which were in the process of being routed back to the Assembly Section of the Identification Division. It frequently occurs that the jackets of persons under active investigation will be called for by the Investigative Division frequently for obvious reasons.

It is believed that these cases could be handled more expeditiously if on all occasions when the Investigative Division requests these jackets they would return them to the Identification Division with a distinctive special tag attached and that these jackets then be filed expeditiously in the Identification Division so that they may be available in the event they are called for within a short period of time.

Sincerely yours,

Carl E. Hennrich

MEMORANDUM FOR MR. NATHAN

In connection with the recent inspection report of the Technical Section, Identification Division, the following comments were submitted by Mr. Quinn Tamm and Mr. Egan concerning Mr. C. E. Hennrich:

QUINN TAMM:

This employee is enthusiastic, interested in the work and has displayed good judgment and marked ability in his handling of the Technical Section. He is particularly industrious and works extremely hard. He has a good knowledge of fingerprints and good technical ability. He has shown definite executive talent and should continue to develop into a very valuable employee.

J. E. EGAN:

This employee impresses me as being a very capable fingerprint man. However, I think he lacks administrative ability. He does not make a very impressive appearance and I certainly do not feel that he is qualified to handle personnel matters. I think that he is all right for regular routine supervision. He works hard and seems to be interested. As a supervisor, I would only classify him as average or a little below.

C. E. HENNERICH:

This employee believes that the sign-in and sign-out charts should be put back into effect but not be too strict if the employees forget to sign in or sign out, as it takes considerable time at present to check the personnel.

With reference to this suggestion I am positively against any register on the seventh floor. There are supervisors in charge of each section who can check the tardiness or absence of any employees and from what information I am able to gather, employees were harshly dealt with when they forgot to sign in or sign out on this register which was previously in effect.

This employee feels that we should make more grade four positions and that increases should be given within grades when possible.

With reference to this suggestion it is believed that this is purely an administrative matter and if positions are available in grade 4 and employees are qualified, the promotion should be made. It is also felt that raises should be given within grades when possible.

This employee believes that the present penalty on misses of wanted men should remain.

With reference to this suggestion a meeting was held of all the supervisory employees and the penalties with reference to the missing of wanted men has been reduced and this employee voted at the meeting for the reduction of this penalty.

This employee believes that we should score errors on failure to reference a print that has been sent back for further search by the non-ident checkers.

With reference to this suggestion, this as well as all other errors in the Identification Division were considered at a conference and it was felt that this type of error should not be scored against the employee.

Reference is made to your letter of June 23, 1939, in which you submitted a suggestion to the effect that the Supervisors of Division One of the Bureau, in returning jackets to the Identification Division, use a special type of tag so that the jacket will be returned "SPECIAL" to the Identification Division and placed immediately in file.

As you probably know, the above suggestion has been adopted.

MEMORANDUM FOR THE DIRECTOR

RE: C. E. HENNRICH
Agent Supervisor
Technical Section

The following comments are set out relative to suggestions made by the above employee to Mr. Egan during the inspection of the Identification Division:

Mr. Hennrich recommends that the sign-in- and sign-out registers be restored in the Technical Section. I am in favor of this. Further comments relative thereto are contained in the memorandum concerning the suggestions of G. J. Engert. *Mr. Egan and I recommend against registers 8718*

Hennrich feels that we should make more grade four positions and that increases should be given within grades when possible. Mr. Egan states this is an administrative matter, and if positions are available in grade 4 and employees are qualified the promotions should be made. This has been done. Mr. Hennrich's suggestion is not this, however. It is to the effect that more grade 4 positions be created, and this in my opinion is a Civil Service problem. They cannot be created without the authority of the Civil Service Commission. It would probably be desirable to communicate with the Civil Service Commission with regard to the possibility of creating more Caf-4 positions, and I so recommend.

Mr. Hennrich also feels that raises within grade should be given when possible. So do I and I have commented thereon.

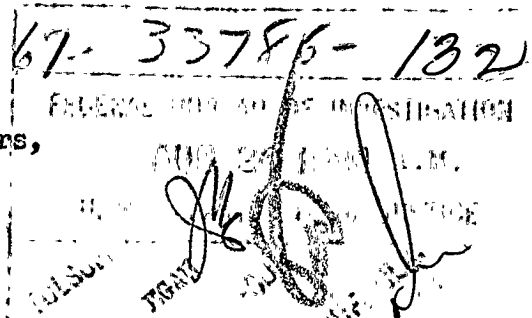

Mr. Hennrich believes that the present penalty on misses of wanted men should remain. This was covered by a meeting of all supervisors, including Hennrich, in which it was decided to reduce the penalty.

Mr. Hennrich believes that errors should be scored on failures to reference prints sent back for further search by the non-ident checkers. This also has been considered and passed upon by a conference of which Mr. Hennrich was a member.

A letter to Hennrich is attached.

Very truly yours,

H. Nathan

7/25/39. Hennrich recommends that the sign-in and sign-out registers be restored. I agree.

With reference to Hennrich's suggestion that we should make more Grade 4 positions, I believe Mr. Hennrich is referring to the possibility of holding out an opportunity for further advancement to the fingerprint men. I believe this suggestion has definite merit and that wherever possible, the Bureau should attempt to have certain of the fingerprint positions reclassified into a higher grade so that more opportunity will be presented to the employees. I believe that if this were possible, it would materially decrease the large turnover of technical employees.

Hennrich feels that raises within grade should be given when possible. I concur.

The question of errors has been considered by a committee and recommendations made which are presently in effect.

Dear Mr. Hennrich:

I have been advised of your recent suggestions to Mr. Egan in connection with the work of the Technical Section, Identification Division.

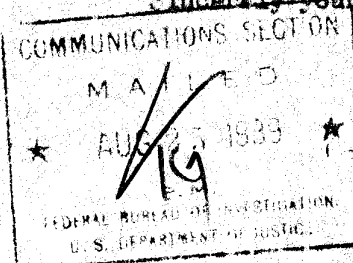

With regard to your suggestion that more grade 4 positions be created, it is desired that you advise the Bureau concerning the number of additional positions in grade 4, the creation of which would be warranted by the work in the Identification Division at this time.

The Bureau agrees with your suggestion that raises within grade should be given when possible, and this is done when the raises are deserved and the appropriation permits.

With reference to your comments concerning the penalty for the missing of wanted men, and the scoring of errors on failures to reference prints sent back for further search, these matters have been, as you are aware, passed upon by a conference in which you participated.

I desire to thank you for the suggestions which you conveyed to the Bureau through Mr. Egan.

Dear Mr. Hennrich:

The Bureau has received the report of the physical examination afforded you at the United States Naval Hospital, Washington, D. C., on December 19, 1939.

It does recommend, however, that you be vaccinated for smallpox and inoculated for typhoid.

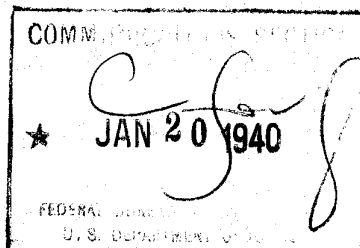

For your information, it was determined during this examination that your blood is International Type "B".

IN-SERVICE TRAINING COURSE #21
April 22, 1940 to May 4, 1940

RE: C. E. HENNRICH
SPECIAL AGENT

This Special agent attended the In-Service Training Course #21 which began on April 22, 1940 and concluded on May 4, 1940.

Hennrich is thirty years of age and has been an Agent for 4½ years. Prior to that time he was a fingerprint man. Hennrich makes a good personal appearance and has a rather pleasant personality. He seems to be interested, enthusiastic and industrious. His attendance during the In-Service Course was entirely satisfactory. I think that any progress which he will make along any administrative lines will come from hard work rather than from innate ability. I think his executive prospects are definitely limited.

This Special agent attained the following grades:

Plant Protection Examination	100
Espionage Examination	98
Notebook	Excellent
Hip Shooting	90
Practical Pistol Course	83
Shotgun	100
.30'06 Rifle	77

REMARKS

Mr. Ladd reports that Hennrich has continued to do excellent work, is enthusiastic, as a general rule displays good judgment, is particularly industrious, loyal, has good technical ability, can handle the personnel of the technical section in a friendly yet firm manner, and has shown definite administrative ability in the handling of employees, but has not as yet been able to conquer an extremely sensitive nature which has a tendency to make him take criticism of the work of the technical section as a personal affront.

At the conclusion of inservice training in May, 1940 Mr. Hince reported that he was interested, enthusiastic, industrious, but that any progress he makes along administrative lines will come from hard work rather than innate ability. He thought his executive prospects were definitely limited.

RECOMMENDATION - He is receiving the top salary in his grade. No increase is, therefore, recommended.

EFFICIENCY RATING SHEET

Office submitting _____

Date submitted May 1, 1940Name of employee Hennrich, Carl E., Assist. Chief, Ident. Division, Grade CAF 11, \$4,600
(Title) (Grade) (Salary)Entered on duty 2/3/34 Entered on duty this office 2/6/38
(Date) (Date)

Consider carefully these definitions, keep them in mind when rating, and compare the employee with all others in the same position for the entire service:

UNSATISFACTORY.....Duty NOT performed AS WELL AS SHOULD BE EXPECTED;
not satisfactory; DECIDEDLY below standard.

FAIR.....Work ORDINARILY satisfactory; NOT OUTSTANDING.

GOOD.....Duty performed in an EFFICIENT MANNER; qualifica-
tions UP TO STANDARD and SATISFACTORY.

EXCELLENT.....Duty performed in HIGHLY EFFICIENT MANNER; qualified
to a PREEMINENT DEGREE.

The following characteristics should be taken into consideration in the determination of the category in which the employee is placed:

KNOWLEDGE: Extent of information concerning all duties of his position; ability to analyze cases; practical application of intelligence and educational training; readiness of comprehension.

JUDGMENT: Common sense; ability to think clearly and arrive at logical conclusion; tact.

INITIATIVE: Trait of beginning needed work or taking appropriate action on own responsibility in absence of orders.

FORCE: Aggressiveness; faculty of performing work with vigor and resolution.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

This employee has continued, in my opinion, to do excellent work in the Technical Section. His work has been of a definitely constructive character and he is enthusiastic concerning the work and, as a general rule, displays good judgment. He is particularly industrious, works extremely hard and is definitely a loyal employee. He has a good knowledge of fingerprints, good technical ability and has shown that he can handle the personnel of the Technical Section in a friendly yet firm manner and I believe has the respect of all of the Technical Section employees. He has shown definite administrative ability in the handling of the employees.

This employee has not, as yet, been able to conquer an extreme sensitive nature which has a tendency to make him take criticism of the work of the Technical Section as a personal affront. He should in time conquer this sensitivity.

I would state that his work has been entirely satisfactory and of value to the Bureau. I would grade him "excellent".

Have the contents of this report under the heading "Remarks" been read in full to the employee to whom they relate, and has the employee been informed as to the status reflected on the reverse side of this report? _____

Mr. C. E. Hennrich

Dear Mr. Hennrich:

I wanted to advise you that you were given an excellent efficiency rating for the past year.

It was my desire to afford all of those employees securing excellent efficiency ratings a one-step administrative promotion in salary. I regret that this has not been possible in your case, in view of the fact that at the present time you are receiving the maximum salary in your grade and under existing Civil Service regulations it is not possible to reallocate your position at this time.

I do want you to know, however, that I officially and personally appreciate the manner in which you have performed your duties. I know that you will continue to efficiently carry out your assignment.

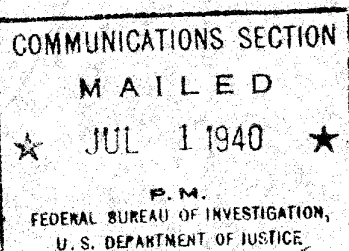

With kind personal regards,

Sincerely yours,

J. Edgar Hoover

I am attaching hereto memorandum from Mr. Delavigne with reference to his absence from the gymnasium on June 20th and 21st.

With reference to Mr. Hennrich's absence from gymnasium on June 19th, I desire to advise that he informs me that he was present on this date, but he forgot to sign the register. Re: C. E. Hennrich
Special Agent

The above named Special Agent has for the past week been given special instruction in the handling and shooting of all Bureau firearms, as well as gas and its related subjects. He has been given instruction in the teaching of firearms and the handling of a fire line.

MEMORANDUM FOR THE DIRECTOR

On August 14, 1940, Russell E. Sullivan and Alexander M. Gansky, employees in the Technical Section of the Identification Division, called at my office on behalf of the Technical Section employees and advised that the employees in the Technical Section had heard that Mr. Hennrich had left and they were anxious to take up a collection and purchase him a little gift. They stated that inasmuch as he was no longer a Supervisor, they did not think any objections would be raised to this. They desired advice.

I told them that I would consider the matter and let them know. Subsequently, I talked to Mr. Nichols, who talked to the Director, and authority was received to permit them to handle it themselves. Accordingly, these employees contacted the Tech men and took up a small collection. It is believed that they will probably obtain a desk set for Mr. Hennrich, although it is not known definitely at this time. As soon as the present is sent, I will advise you thereof.

Respectfully,

D. M. Ladd

MEMORANDUM FOR MR. TOLSON

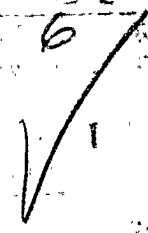

SAC Hennrich called from Roanoke where he is holding the quarterly police conferences. His doctor in Richmond just called him, stating that his baby boy was very sick, that he was taking him to the hospital immediately to make a spinal puncture as the doctor feels the baby has either spinal meningitis or polio.

I told Hennrich to immediately return to Richmond and make arrangements for either the Resident Agent or the Number 1 Man, R. L. Murphy, to carry on with the conferences. He stated he would remain in Roanoke for the balance of the day as the doctor told him there was no immediate danger although the doctor said he believed he should be back in Richmond tonight.

I told Hennrich to have Special Agent R. L. Murphy to carry on the American Legion contacts and the police conferences for the next few days and for him to remain in Richmond or very close thereto, as the Director would not tolerate his being out of the city when his baby was in the condition he is at the present time.

Respectfully,

L. B. Nichols

Dear Mr. Hennrich:

I was very much disturbed to learn of the illness of your child and I want you to remain in Richmond until the doctor feels he is showing a marked improvement.

If there is anything that I can do, either personally or officially, do not hesitate to call upon me.

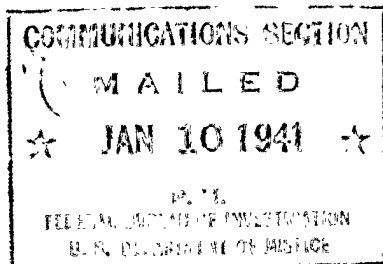

I hope that within a few days the doctor will be in a position to report that the child is well on the way to recovery.

I today saw Special Agent in Charge C. E. Hennrich of the Richmond Office. Mr. Hennrich makes a good impression. I believe, however, that he has not yet acquired the full tempo of the present emergency, and the National Defense Division should keep in very close touch with conditions at Richmond, particularly as to informant coverage, which I would gather has not been as completely covered as is desirable.
